Report Date: May 2007

Type of Study: Intensive pedestrian survey

New Sites: None

Updated Sites: None

USGS Quad: Cuyamaca Peak

Acreage: <1 acre

Key Words: San Diego County, Descanso, Cuyamaca, negative archaeological survey, Township 15S, Range 4E, unsectioned

RE: Descanso Verizon Wireless; Case Number 06-098
Cultural Resources - Negative Findings

To Whom It May Concern:

Please be advised that a survey has been conducted on the above referenced project. It has been determined that there are no cultural resources present on this property. The project has been plotted on the attached USGS 7.5 minute topographical map for your information.

County: San Diego

USGS 7.5' Quad: Cuyamaca Peak **Date:** 1985 **Section:** unsectioned

Township: 15 South **Range:** 4 East

Address: 11190 Highway 79

City: Descanso **State:** California

Thomas Brothers: 1216

Other Locational Data: Adjacent to Cuyamaca Rancho State Park

Assessor Parcel Number(s): 407-051-01

UTM: 539 848 mE/3638 390 mN - from National Geographic TOPO software

Elevation: 4080 ft (from USGS)

Owner and Address: Bernie and Peggy Martin
11190 Highway 79
Descanso, CA 91916

Survey Type: Intensive Pedestrian

Date of Survey: April 27, 2007

Field Crew: Mary Robbins-Wade and Richard Linton (Native American monitor)

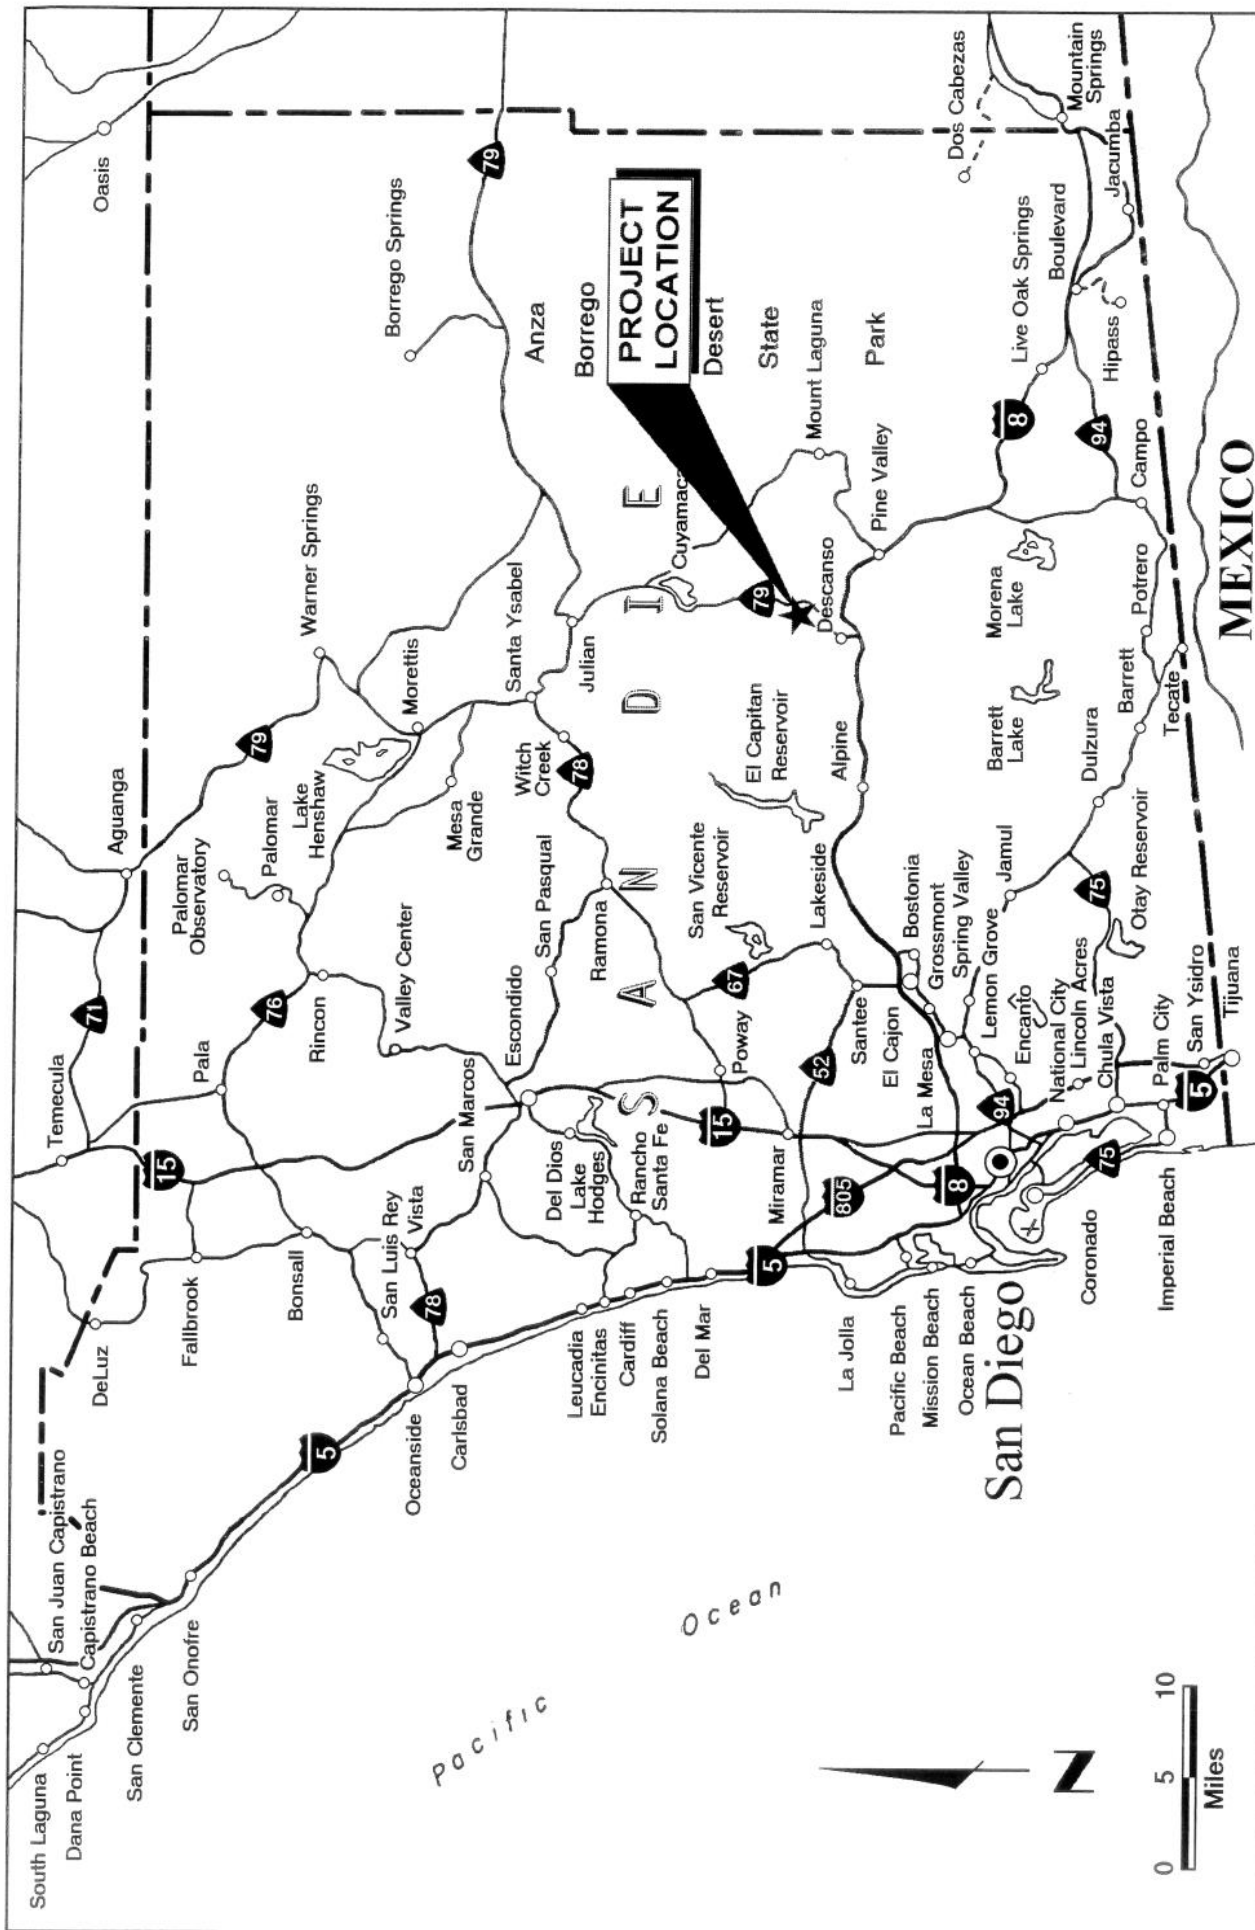

Description: The field survey was conducted using standard archaeological procedures and techniques. To the extent feasible, continuous parallel transects spaced less than 10 m apart were walked in the direction of the ridge line. The steeper slopes of the ridge were contoured, so that all areas were walked. The existing access road to the knoll top was also surveyed. Survey conditions in these areas were good, with some areas partially obscured by vegetative cover. Some grading has been done on the knoll top in the past to accommodate two existing water tanks and associated features. No artifacts or features were identified during this survey. Therefore, no impacts to cultural resources are anticipated.

Sincerely,

Mary Robbins-Wade, Director of Cultural Resources

Re: Cultural Resource Identification Study/Sacred Lands File Search for Proposed Descanso Cell Site Project: Mt. Laguna Area: San Diego County, California

Dear Ms. Robbins-Wade:

The Native American Heritage Commission was able to perform a record search of its Sacred Lands File (SLF) for the affected project area. The SLF failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the Sacred Lands File does not guarantee the absence of cultural resources in any 'area of potential effect (APE).'

Early consultation with Native American tribes in your area is the best way to avoid unanticipated discoveries once a project is underway. Enclosed are the nearest tribes that may have knowledge of cultural resources in the project area. A List of Native American contacts are attached to assist you. The Commission makes no recommendation of a single individual or group over another. It is advisable to contact the person listed; if they cannot supply you with specific information about the impact on cultural resources, they may be able to refer you to another tribe or person knowledgeable of the cultural resources in or near the affected project area (APE).

Lack of surface evidence of archeological resources does not preclude the existence of archeological resources. Lead agencies should consider avoidance, as defined in Section 15370 of the California Environmental Quality Act (CEQA) when significant cultural resources could be affected by a project. Also, Public Resources Code Section 5097.98 and Health & Safety Code Section 7050.5 provide for provisions for accidentally discovered archeological resources during construction and mandate the processes to be followed in the event of an accidental discovery of any human remains in a project location other than a 'dedicated cemetery. Discussion of these should be included in your environmental documents, as appropriate.

If you have any questions about this response to your request, please do not hesitate to contact me at (916) 653-6251.

Sincerely,

Dave Singleton, Program Analyst
